Differentiators

Customizable:

Our Faraday solutions are customized to exactly how you need them to be.

Effective:

Our team prides itself in industry knowledge to deliver the most effective results to the customer.

Driven:

Our team's enthusiasm for this industry drives high quality partnerships and performances.

Core Competencies

Faraday Enclosures & SCIFs

Faraday Defense specializes in building enclosures that offer maximum RF security. A wide range of options offers a premium customized chamber for your exact requirements.

Faraday Bags & Pouches

We offer bags and pouches that completely isolate devices. Location, signature, and chain of evidence integrity are completely protected in a wide range of bags with different features, all offering a high standard of device isolation.

Vehicle & Electrical System EMP Protection

Solutions for vehicles, buildings, and power systems that keep electrical systems intact and protect in the event of an EMP or solar event.

Ready to Work
